

# Weekly Report

Analysis and Development of a method  
for state of charge estimation of  
batteries based on Kalman filters

Week: 26/05/2014 to 30/05/2014

Advisor: Armando Sousa Araújo

Student: Sónia Carina Lopes da Costa

## WORK DONE

- Based on the feedback make some corrections of the state of the art.
- Change dissertation title.
- Do more tests using the Matlab algorithm developed.

## DIFFICULTIES

- No occurrence.

## MEETINGS WITH ADIVOR AND FUTURE WORK

- Work for next week: Finish the tests. Start writing dissertation.
